

REMARKS

Claims 1-16 are pending in the application. Claims 1, 6 and 13 are in independent format. The claims have been amended to further clarify features of the Applicant's invention.

The Applicant prepared the original set of claims *pro se* and now engages a new patent attorney to prosecute the application.

This application was abandoned due to mistakes made by the USPTO. The Applicant filed a Petition to Revive which was granted by the USPTO on May 13, 2005. At that point the application entered the twilight zone. The Applicant has been trying for the past three years to get this Application back on some Examiner's docket but all inquiries by the Applicant have been ignored. Examiner Bali has been very courteous but has indicated that this application does not belong to him even his name is listed on the PAIR system for the application.

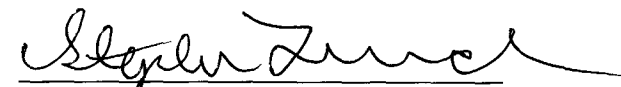

The Applicant requests the Examiner IMMEDIATELY examine the claims as amended as the Application was original filed in 1999, over nine (9) years ago.

Respectfully submitted,

Lesavich High-Tech Law Group, P.C.
